## PREFACE.

THIS is the first printed catalogue that has been prepared for the Photographic collection at the Forest Research Institute, which comprises the old collection of the Imperial Forest School together with additions since the constitution of the Research Institute in 1906. This collection, which is under the charge of the Sylviculturist, consisted on the 1st November 1911 of 1,433 photographs and 795 negatives.

The photographic prints are classified under two separate indices, I.—*General*, II.—*Geographical* (India only), the main sub-heads under each being shown in the Table of Contents below.

Negatives are classified according to size, to facilitate storage, the different sizes being denoted by letters as follows :—

	Number of negatives on 1st November 1911.
P $4\frac{1}{4}'' \times 3\frac{1}{2}''$ (Quarter plate) . . . . .	31
Q $5'' \times 4''$ . . . . .	140
R $5\frac{1}{2}'' \times 3\frac{1}{2}''$ . . . . .	Nil.
S $6\frac{1}{2}'' \times 4\frac{3}{4}''$ (Half plate) . . . . .	249
T $8\frac{1}{2}'' \times 6\frac{1}{2}''$ (Full plate) . . . . .	210
U $10'' \times 8''$ . . . . .	91
V $12'' \times 10''$ . . . . .	74
W $15'' \times 12''$ . . . . .	Nil.
<b>TOTAL</b> . . . . .	<hr style="width: 100%; border: 0.5px solid black;"/> 795 <hr style="width: 100%; border: 0.5px solid black;"/>

Negatives of dimensions other than the above are classified under the size most convenient for storage purposes.

Officers are invited to add to the collection photographs of trees or any subjects of interest in Forestry : these may be sent in the form of good prints, negatives, or undeveloped plates. Prints and negatives will be returned, if desired, after copies have been taken. Plates will be developed at the Forest Research Institute free of charge, the negatives being returned, if desired, after copies have been taken ; if the negatives are accepted, the cost of the plates will be defrayed, should the return of the negatives not be desired. All prints, negatives, or plates should be accompanied by a brief note as to the subject and the name of the officer taking the photograph, and undeveloped plates should, if possible, be accompanied by a note as to exposure, light, stop, and plate used.

It is understood that all photographs sent to the Forest Research Institute will, unless the contrary is specially desired, be available for reproduction or publication over the name of the officer taking the photograph, if known. It may be mentioned that some of the photographs in the collection, which have been taken for a special object with a view to publication later, are not available for issue at present: these are marked with an asterisk. *Bonâ fide* enquiries regarding the issue of photographs from the collection will be attended to by the Sylviculturist, to whom any applications on the subject should be addressed: a price list of prints will be found at the end of this catalogue.

The undersigned will be glad to have his attention drawn to any errors or omissions in this catalogue. Where known the photographer's name is entered in each case, but in many cases it is unknown and has therefore had to be omitted.

R. S. TROUP,  
*Sylviculturist.*

DEHRA DUN, U. P., INDIA.

*The 1st November 1911.*

# TABLE OF CONTENTS.

## I.—GENERAL INDEX.

(HEADS A TO J REFER TO INDIA ONLY.)

	Number of photos. on 1st November 1911.	PAGE.
A. Sylviculture including types of trees and forests . . . . .	712	1
B. Botany . . . . .	97	90
C. Forest utilization . . . . .	100	98
D. Forest engineering including buildings and transport of timber . . . . .	168	112
E. Zoology and shikar . . . . .	53	126
F. Scenery and miscellaneous views . . . . .	42	130
G. Ethnographical . . . . .	21	133
H. Portraits and groups . . . . .	37	135
J. Miscellaneous . . . . .	19	137
K. Foreign photos ( <i>i.e.</i> , all countries outside India) . . . . .	184	138
TOTAL . . . . .	1,433	

## II.—GEOGRAPHICAL INDEX. (India only.)

Ajmer-Merwara . . . . .	161
Andamans . . . . .	<i>ib.</i>
Baluchistan . . . . .	<i>ib.</i>
Bengal . . . . .	163
Bombay . . . . .	<i>ib.</i>
Burma . . . . .	167
Central Provinces (including Berar) . . . . .	180
Eastern Bengal and Assam . . . . .	182
Madras . . . . .	186
Native States . . . . .	<i>ib.</i>
Punjab . . . . .	188
United Provinces . . . . .	191
Forest Research Institute and College, Dehra Dun . . . . .	240

## III.—SCALE OF CHARGES FOR PRINTING AND NEGATIVE MAKING. 245
